

CONCERNED ABOUT EDUCATION IN PWC PUBLIC SCHOOLS?

- Have “Math Nights” left you frustrated with more questions than answers?
- Wondering why your 2nd or 3rd grader is still counting on his/her fingers and toes and doesn’t seem to “get” basic math facts?
- Is your elementary school age child bored, confused or frustrated with the “whole language” approach to TERC’s Investigations Math?
- Wondering why your children are not learning the correct terminology or algorithms, but have to “rote memorize” convoluted and long procedures to solve the most simple arithmetic problems?
- Frustrated with elected officials and school administration not listening or taking your concerns seriously?

TUESDAY, NOV 4TH
EDUCATION RALLY & PETITION SIGNING
MCCOART COMPLEX (PW PARKWAY)
2PM - 7PM

Kids Welcome!

**What do you think about the controversial
TERC Investigations Math Program?**

**Bring signs to voice your concerns and join to help to raise awareness
and improve Prince William County Public Schools!
Encourage everyone to stop by and sign our petition.**

**Come out and be part of the solution...Let’s start by bringing a solid
and proven math curriculum to PWC elementary schools!**
